Raven No. 3

Eric Nash

An artist that lives and works in Los Angeles, Eric Nash often turns an introspective lens on the cityscape of Los Angeles revealing a preciousness in the fragments of our common lives. Magnifying seemingly insignificant moments in time yield visual results that are at once surreal and deeply transformative. Fragmented moments as seen from the car, skulls, ravens, dogs, and 76 signs all contribute to Nash's rich visual vocabulary celebrating the surreal and paradoxical reality of Los Angeles. Nash's work is currently featured in multiple private and corporate collections nationwide including those of leading LA art collectors, producers, directors and film actors.

AIDS Research Alliance

Established in 1989, AIDS Research Alliance (ARA) envisions a future in which HIV and its effects on health are eliminated, and new infections are prevented. AIDS Research Alliance exist TO DEVELOP A CURE FOR HIV/AIDS, medical strategies to prevent new infections and better treatments for people living with HIV/AIDS. AIDS Research Alliance is pioneering a revolutionary business model for conducting medical research in the United States, influencing the direction of HIV research along the way.
